## Literacy/Education Service Project Ideas

Listed below are some service project ideas addressing the issues of Literacy and Education. If you decide to do one of them, be sure to check with the non-profit organization you are planning to work with to make sure the project would be something that they could use. We will add more project ideas as we find them.

**Mobile Library** - Create a Mobile Library to share with the people in your community!

**Book Drive** - You can do a book drive for books to go into your mobile library or to donate to a shelter, school, or other organization that has a shortage of books.

**Back-to-School Drive** – Do a school supply drive to donate to the children who are dealing with poverty and might not be able to afford the supplies they need for school. It might include pencils, glue, scissors, crayons, etc...

**Special Reading Rugs** - Decorate carpet or carpet squares with permanent markers drawing image outlines (inspired from children's books) directly onto carpet or carpet squares. Create a place that will encourage reading. Donate the rugs to a school, library, shelter, or other organization who might be able to use them with their students.
